

ADDRESS UPDATES may be made via email. However, for faster service, see the steps below to become an online customer and change your address using the online system. You may visit the online services section of our website at: <https://vo.licensing.hpc.texas.gov/datamart/login.do>

The first step to changing your address is to register for a secure online account through the online system using the link above. Please note that the online system link will open in a new window. You will need a valid email address to register for your secure online account. The email address you register will become your User ID. The registration of your email address and creation of an online user account is a one-time only process. Your online account can be used for most processes related to your license or registration.

Send requests for address or phone number updates via email to: addressupdate@tsbpe.texas.gov

You must include in the email request, your full name as it appears on your license or registration card, license/registration number with rank, current address of record and date of birth along with your new address and/or telephone number. For security reasons your information will not be updated until you furnish the above information with your request.
